Jesus was going through all the cities and villages, teaching in their synagogues and proclaiming the gospel of the kingdom, and healing every kind of disease and every kind of sickness. Matthe... 9:35

Three ways to develop a cooperative model at Mt. Olive Hospital
1. Going through all the cities and villages in the mission.
2. Teaching and proclaiming the gospel of the kingdom as the mission.
3. Healing every kind of disease and every kind of sickness in the mission.

But our citizenship is in heaven.
And we eagerly await
a Savior from there, the Lord Jesus Christ.
Philippians 3:20
Mt. Olive Hospital, 2012

“A bruised reed he will not break, and a smoldering wick he will not snuff out. In faithfulness he will bring forth justice” Isaiah 42:3
